

SAVE THE LAST OF THE FIRST PANDA

AS FEW AS **2,500**
RED PANDAS REMAIN
THE IN THE WILD.

MAIN THREAT IS HABITAT LOSS.
RED PANDA POACHING IS ON
THE RISE AND HARMING ALREADY
VULNERABLE POPULATIONS.

INTERNATIONAL RED PANDA DAY

This is the most important day of the year for red pandas; a day of global education, celebration, and conservation. Red pandas are the first panda – discovered nearly 50 years before the giant panda – and the endangered panda.

Join us in saving the last of the first panda on International Red Panda Day!
